System Type* _____

Size (kW) _____

Annual kWh _____

Battery Y/N? _____

Signature _____

Date _____

Please complete and submit this form with the \$250.00 application fee and solar company proposal. Proposal should include: system size, property site plans indicating location of system, drawings detailing electrical circuitry and interconnection method, equipment description and manufacturers catalog sheets, installed cost of system and projected annual kWh production.

If system inverter includes or is capable of a battery source, or is a synchronous generator source, the drawings must be signed and stamped by a PA registered professional electrical engineer.
